CLIENT CONTEXT

Piping supply for five PSV retrofits

BOURBON, a prominent industry leader with a fleet of over 500 vessels specializing in offshore services, is known for its unwavering commitment to operational excellence.

GLO Marine has been selected by Bourbon Offshore to supply all piping prefabricates for the installation of ballast water treatment systems on board of five of their platform supply vessels.

THE WORK TO BE DONE

Project phases

- Supervised and inspected each prefabrication stage
- Carried out all due diligence
- Shipping 20 tonnes of galvanized steel pipes to 4 different locations
- All installations have been carried out efficiently and error-free

THE CHALLENGE

Supplying heavy piping under tight deadlines

GLO Marine's success with large equipment integration proved crucial in extending this collaboration to future vessel upgrade projects related to wind propulsion systems.

The challenge of supplying 20 tons of galvanized steel pipes to four locations simultaneously in record time required exceptional logistical planning and execution.
